Learning Guides & Labs

Before you write a unit exam, you must send me all assignments leading up to the exam. All submissions **MUST** be very neat and well organized. If you can't figure out a question, you should be researching, then asking for help.

Exam Supervision:

Quizzes can be done on your own (not supervised). Use them as practice – ie. give them a try first, then refer to notes if you need a little extra help. Keep track of where you needed help and review prior to your second try and/or unit exam.

All exams are "closed book" and require supervision. If you are unable to access a local school to write your exams, you will need to find a teacher that will supervise your exams. Please have them e-mail me and I will send them the required information

Resources:

There is NO textbook required for this course.

Keys to Success:

1. Actively work through each lesson, trying examples and reflecting on material.
2. Use the Learning Guide as your tool for documenting your understanding. Lay it out neatly and well organized.
3. Make sure you understand any quiz/exam question you get wrong. If you can't figure it out - ASK!
4. Be sure to use your Moodle message system for regular communication with your instructor.
